Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund.

i have a tracfone where i prepurchase minutes. i do this because i use my cellphone so little that it is by far the most economical way to be able to use a cellphone for urgent calls. i make about 10 calls a year. why should i have to pay the same charge as a large corporation that makes thousands of calls or more. corporations seem to get plenty of breaks. i dont thing they need this one

Keep the USF Fair!

Sincerely,
